Since there are limited slots available for participation, the quota per state is allocated as stated below. This is based on the number of shooters participated in 64 NSCC in Senior events. The states can send their entries according to the quota allotted to them. A shooter can participate in multiple events, wherever qualified.

Selection of shooters, who have achieved MQS under Rule 17.6 NRAI Match Book, will be done by the respective State Rifle Associations. It is expected that the States would send their best teams for the prestigious National Games.

Under the principle of Universality, the NRAI may grant wild cards to States, whose shooters did not participate in NSCC
